Cold Trailer Hire

Refrigeration Hire Agreement- Delivery Acceptance

Site-

The trailer must be sited on a flat and level hard standing base provided by the customer. If the trailer is to be sited in a building or a marquee, then adequate ventilation must be available to maintain an ambient temperature of no more than 35 centigrade. The trailer must also be positioned slightly nose-down to allow defrosted water to drain down the external drainpipe, and, where fitted, the telescopic prop stands must be lowered to carry the weight of the contents.

Power supply:

The power supply required is a standard 13 amp three-pin socket or a 16 amp c-form socket. The mains power socket must be no more than 75m from the unit (with a 16 amp cable). Dales will supply all necessary electrical cables, the generator and fuel. Under no circumstance can other cabling be used. Please note: Failure to follow these instructions may cause a voltage drop and unit damage. Subsequent repairs will be added to the invoice. Please note- fuel will be priced in to the hire.

Temperature:

Once your unit has been delivered, Commissioned and the set temperature agreed, then you will need to monitor it on a regular basis (every three hours is ideal) to ensure that the temperature is maintained. The unit is designed as a holding room and therefore contents entering the trailer must be at an appropriate temperature: for chiller between +5 and +10 degrees C.

Storage:

Contents to be stored must not only be at an appropriate temperature, but please also ensure that containers are food safe and free from contamination. It is also important not to stack contents in too tightly as this prevents air flow – Adequate ventilation helps to maintain the temperature. If you have shelving in your trailer, please note that each shelf holds up to 35kg evenly spaced weight per shelf and 175kg in total. Keep centre aisle clear.

Entering and leaving the trailer:

Step: please mind the step when entering and leaving the trailer. If it gets wet, please wipe it down to help prevent slipping.

Door: the door must only be open to allow access – leaving it open for a long period will cause large fluctuations in temperature and this will in turn cause the unit to ice up and fail. Every door is fitting with an internal door-latch to prevent anyone being trapped inside – please ensure that all users are shown where this is. N.B The exception to this is the 5m trailer which has no internal door-latch.

Curtain: if your trailer has strip curtain fitted. Do not remove. Not only does it help with temperature in the trailer when the door is open, it also prevents insects from entering.

Moving the trailer:

Please do not attempt to move or tow the trailer. We do not insure hirers to tow the trailers and all trailers are also fitted with anti-theft devices at the time of delivery. If you do need to move one urgently then please call us and will give you full instructions and insurance permission.

Breakdown:

Any refrigeration malfunction/damage/breakdown/ misuse must be notified to Dales immediately. We will always endeavour to arrange technical back- up or provide a replacement trailer on the unlikely event of a breakdown.

Cleaning:

All units and shelving are cleaned prior to delivery. Please ensure that it is returned to us in a reasonable condition – shelving should be wiped down and the floor swept. If the unit is returned in a dirty condition than a £50 cleaning charge may be made.

Loss of items:

Any loss or damage of these items will be charged for: Keys £10, padlocks £15, wheel-clamps £100, hitchlocks £100, power leads £25, shelving units £150 per unit, strip curtains £125, 16 amp to 13 amp flyleads £10, fuel cans £30, fuel funnels £10 and rear light lenses £30. All prices subject to VAT.

Trailer conditions report

Check-list

- Keys
- Cabling
- 16 amp to 13 amp fly lead
- Wheel-lock
- Hitch-lock
- Padlock
- Strip curtain
- Racking
- Generator

..... set point temperature

- I have read and understood the safety and operating instructions, and confirm the conditions of the trailer as above. I also confirm that I have taken delivery of the other items listed above, and take responsibility for their safekeeping. I understand that if lost or damage a charge will be made.
- I have read and agreed with the terms and conditions overleaf.
- I understand that under no circumstance can Dales be held responsible for loss of contents/produce held within the trailer, and also that Dales will not be held liable for any accidents or third party injury that occurs during the use of the trailer or cold room.
